

Summary

Hik-Connect Share function shares device domain name.

In hik-connect, one device could only be added into one account; in order to solve the ‘multi people access one device’ problem, **Share** function is released.

Note:

1. Users can use Hik-Connect Share function via Hik-Connect APP and www.hik-connect.com web portal in order to share device to others, or manage the device shared by other;
2. Cross-regional share operation is not allowed;
3. Currently only device domain name could be shared, which means the alarm push function and the live view function in Hik-Connect tab can't be shared;
4. You can set different privileges for different users by providing them with admin/guest/operator account. The privileges are the same between different hik-connect accounts.
